

Approval: _____
Director, Safety and Mission Assurance

Objectives:

- To meet requirements of [NPR 8735.1D](#), Exchange of Problem Data Using NASA Advisories and the Government-Industry Data Exchange Program (GIDEP).
- To provide KSC with information on suspect nonconforming, improperly manufactured, counterfeit, or safety deficient parts, materials, software, or safety items.
- To ensure KSC Program/Project/Operations/Institutional Managers and KSC Prime Contractors at KSC are aware of GIDEP Notices/ NASA Advisories and have investigated the appropriate flight, ground support, inventory, or other parts, materials, software, or safety items.
- To notify Safety and Mission Assurance Directorate (SA) management that the potential suspect items are being or have been investigated, and are not being utilized in any critical application.

GIDEP is a cooperative information sharing program between the US and Canadian governments and industry participants. The goal of GIDEP is to ensure that information concerning problems involving parts, materials, software and safety is exchanged both internally and externally to NASA, and to provide a mechanism to ensure that appropriate parts, materials, software, and safety items are used.

Note 1: Review and if necessary, make changes to Response Type for Response Required, Acknowledge Only, or Information Only and Response Date prior to sending the selected items to the GIDEP Responders.

Note 2: GIDEP Responders include KSC Prime Contractors and NASA KSC Program/Project/Operations/Institution.

Note 3: GIDEP Responders review GIDEP Notices/NASA Advisories from <https://nanadarts.nasa.gov/> and distributes to applicable group.

Note 4: For contractual projects, the NASA KSC Program/Project/Operations/Institution perform the surveillance function to ensure GIDEP Notices/NASA Advisories are evaluated and dispositioned properly by the Contractor(s).

Note 5: Dispositions accordingly to Required Responder Training (located under Help button) in NANADARTS (<https://nanadarts.nasa.gov/>).

Note 6: Document the disposition within 30 days. Request extension if needed. Open GIDEP Notices/NASA Advisories: 30 days prior to launch, notify KSC GIDEP Coordinator; within 7 days prior to launch, need to disposition through MRB, if possible, within 24 hrs; within 2 days prior to launch, management need to investigate without delay and impact determined.

Note 7: GIDEP Notice/NASA Advisory can be closed with coordination from technical community impacted.

Acronyms:

MRB - Materials Review Board
NANADARTS - NASA Advisories, Notices, and Alerts Distribution And Response Tracking System
